

DANIEL SUTTON

ABOUT

Hi there! My name is Daniel Sutton and I am a full stack .NET developer with a strong background in software development and design. I am currently studying Software Technologi from the Danish Technical University and have worked as a software developer student assistant for a few years. I have gained experience with a variety of programming languages, including C#, Java, and a bit of Rust and Python and I am proficient in web development. I am passionate about creating high-quality software and am always looking for ways to improve my skills and stay up-to-date with the latest technologies and trends.
